Welcome to the Eighth Annual Little Belt Classic Bull Sale

On behalf of **Mikkelsen Ranch and Frank Angus**, we are proud to welcome you to our **Eighth Annual Little Belt Classic Bull Sale**. Each year, our focus remains the same, to produce functional, high-quality Black Angus cattle that deliver real-world performance for the commercial cattleman. This year's offering is the strongest and most consistent group we've put together to date, and we are truly excited to share them with you.

Our program is built around the belief that **good cattle must work for a living**. We hold our herd to a high standard for **foot and udder quality, easy fleshing ability, and quiet disposition**. Our registered Angus females are expected to perform right alongside our large commercial herd — they must calve easily, mother naturally, and raise a calf that has the weight and quality to make a difference at shipping time.

While we're proud of the progress we've made, we are never finished improving. Each year brings new goals, new genetics, and new opportunities to strengthen our herd and better serve our customers.

This year's offering includes sire groups from **Ellingson Prolific, Golden Oak 0807 Hollywood 210K, S Wrangler 830, BCC Rapport, and SAV Rise and Shine**, along with standout herd sire prospects by **Brookings Revival, FF Deep River, and Sitz Classic**. We believe this lineup offers a strong balance of calving ease, growth, and maternal traits to fit a variety of programs.

In addition to the bulls, we will have **50 head of straight Black commercial bred heifers** available — evenly split between sexes — as well as **12 baldy heifers AI'd to Below Zero**, due to calve **February 11, 2026**. There will be a handful of registered heifer calves and bred heifers offered in single lots.

We sincerely appreciate your continued interest and support in our program. Whether you're a returning customer or attending our sale for the first time, we invite you to stop by the ranch, walk through the pens, and visit about cattle. It's relationships with fellow producers like you that make this business so rewarding.

We look forward to seeing you sale day.

With gratitude,

The Mikkelsen Ranch & Frank Angus Families

FERTILITY GUARANTEE

Bulls will be wintered for free until April 1. Little Belt Classic will assume responsibility for the risk of the bulls until then. All wintered bulls will be fertility tested and guaranteed sound for the first breeding season before delivery. If a bull needs to be replaced within 90 days initial turn-out, we will either (A) do our best to replace the bull with a comparable one, (B) you will be offered sale credit minus the salvage value of the bull, or (C) you will be given a refund of the purchase price minus the salvage value. This guarantee is only valid on bulls purchased for \$5,000 or more and does not cover death or injury of a bull that has a treatable condition nor will it cover acts of God such as a vehicle collision or a lightning strike. Our fertility guarantee is based on the standards of fertility and nutrition as outlined by the American Angus Association. Bulls that are not wintered by us will not will not qualify for our fertility guarantee. Any injuries must be reported prior to September 1, 2026.

THANK YOU

We'd like to extend a special thank you to our crew for their help throughout the year: Tyler Flynn, Mick Mosher, Kodi Bireley, Casey, Samantha and Tanner Allen and Jed Stevenson. Our ranch would not operate as smoothly without the hard work ethic of our employees and exceptional friends.

- Lot 1 starts the sale with a bull that checks all of the boxes. He is a prime example of what we strive for as registered seed stock producers.
- Since birth, he demands your attention as he strides out on a strong foot. He's got a beautiful square hip and carries his muscle mass down to his lower 1/3.
- His mother is earning her way to the donor pen, just as his grandmother, D18 did, weaning 3 at 110 and staying within her calving interval every year. She is a beautiful cow that adds her attractiveness to this massive Prolific son.
- Lot 1 posted one of the highest adj weaning weight in the sale of 826 lbs. Take a look at his EPDs and you'll see he ranks in the top 2% for weaning weight and carcass weight and the top 3% for yearling weight. He posts a +125 for SF.
- Putting all of this together, you'll realize lot 1 is a cow bull that is going to add weight and carcass to your calves while keeping them sound far into maturity.

- We really like these Revival calves and N85 fits right into this great group.
- He is a real long sided type bull that is complete in his type and kind.
- He is a great low birthweight option for your heifers that will add some weight and style to their calves.

- Lot 18 is the only Thedford in the offering this year.
- We have really loved the females we have retained out of this sire, they have beautiful udders, attractive from the side profile and super docile during calving season.
- We really like this bull, he is super long sided and huge topped raised by a first calf heifer L36.
- L36 goes back to the Pearl Enechor family which has a heavy presence in our herd. She is maternal sibling to lot 4. This calf is stacked to the brim with maternal traits.

- Lot 56 is one of the youngest calves in the sale, and posts the heaviest adjusted weaning weights. He comes from a big brood cow we have nicknamed "Moose." She has weaned 4 at 107
- He's green but if you can see the potential in this calf he will make a really nice bull.
- A maternal brother to lot 16, Tim Sundlings \$7000 choice of our 2024 sale.
- We have had good luck with the Stunner sire group, adding a lot of mass and style to our calves, which caused us to choose this Hilltop sire from their 2024 sale.

62 HEAD BRED ANGUS HEIFERS

We take a lot of pride in our replacement females and our customers every year have been happy with their quality and disposition. These heifers were sorted out of the chute during pregnancy test until we had enough numbers for the sale. They are right out of the middle of our own commercial replacement females. We calved some of our own S Wrangler 830 commercial calves last year and we were blown away by the growth they had on first calf heifers. They outweighed most groups of calves at shipping, but didn't compromise our 3 year old breed back rate. You won't be disappointed in these females.

All heifers due to calve 2/11/2026
Arrangements for delivery must be made immediately after the sale.
These heifers are not carrying a brand.
They are up to date on shots and dewormer.
